SURFACE TEMPERATURE PROBE ROLLER TYPE

INTRODUCTION

Acucal make roller type Surface temperature measurement probes for moving or rotating objects. These thermocouples are highly accurate with fast response time.

ACS402

Indicator ACS13 (Optional)

FEATURES

- Fast Response Time
- High Accuracy
- Uses Flat spring ribbon thermocouple element

TECHNICAL SPECIFICATIONS

Temperature Range: 0 to 400 ℃

Element: Cr/Al "K" Type

Junction: Simplex Grounded

Probe Cable: 1 meter Long with Miniature Male Connector
